

Poverty Rate Map

Bureau of Labor Market Statistics 2016

Overview

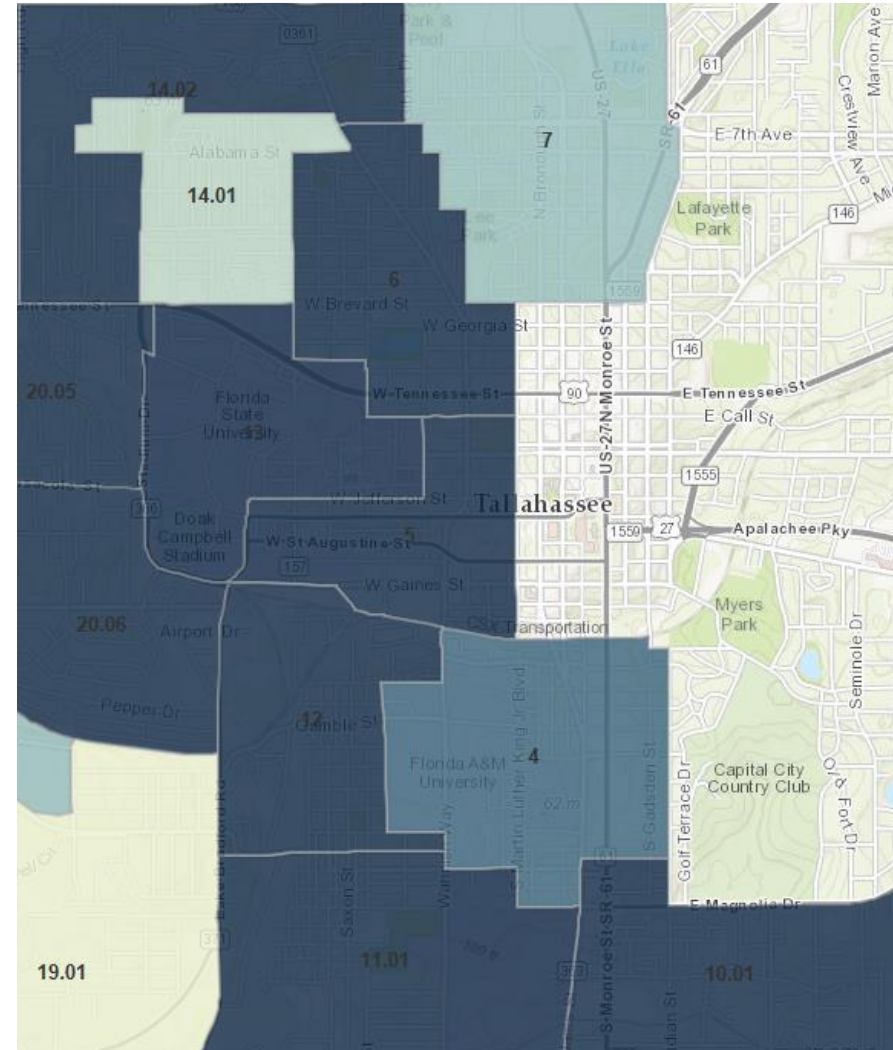

- Click [here](#) to access the map.
- Census tracts with a poverty rate $>30\%$ are shaded.
- The census tract number is displayed for each shaded tract in bold.

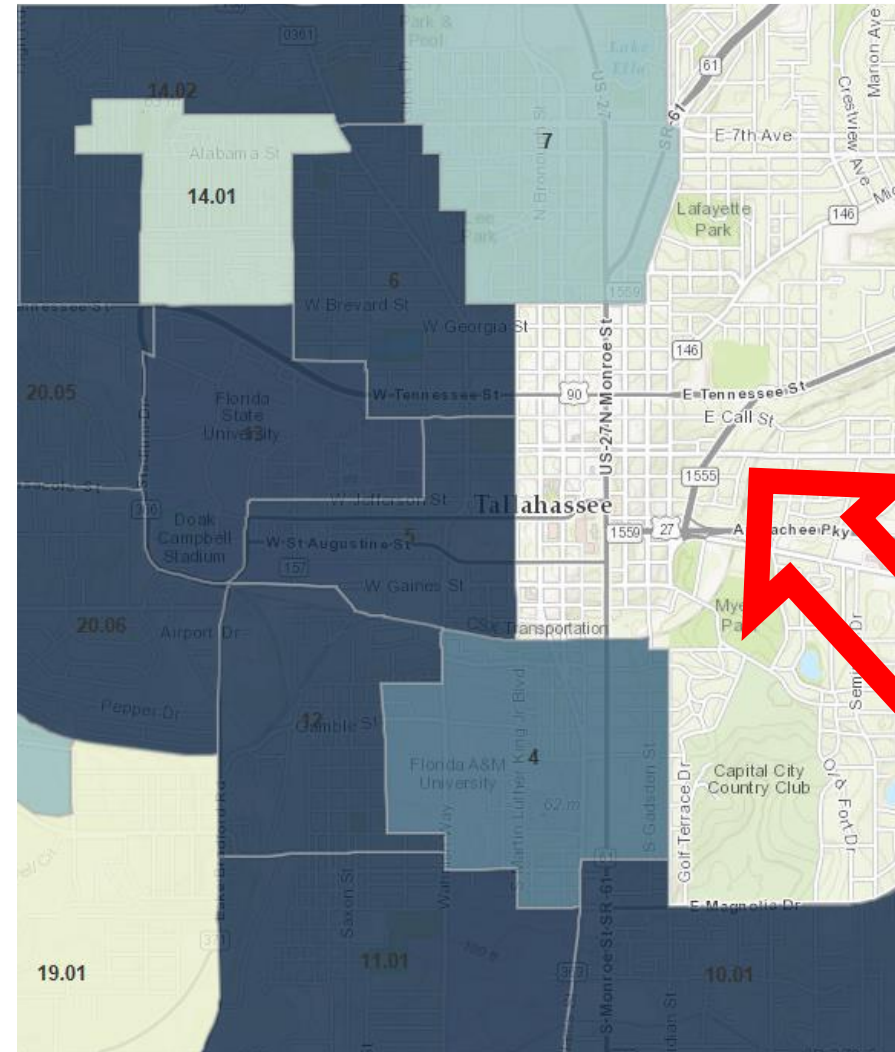

Poverty Rate Percentage Legend

- The map shading is determined by the poverty level percentage
- As the percentage increases, the shaded area will get darker in color
 - No shading: not in high poverty area
 - Green shading: at or slightly above 30 percent
 - Blue shading: well above 30 percent

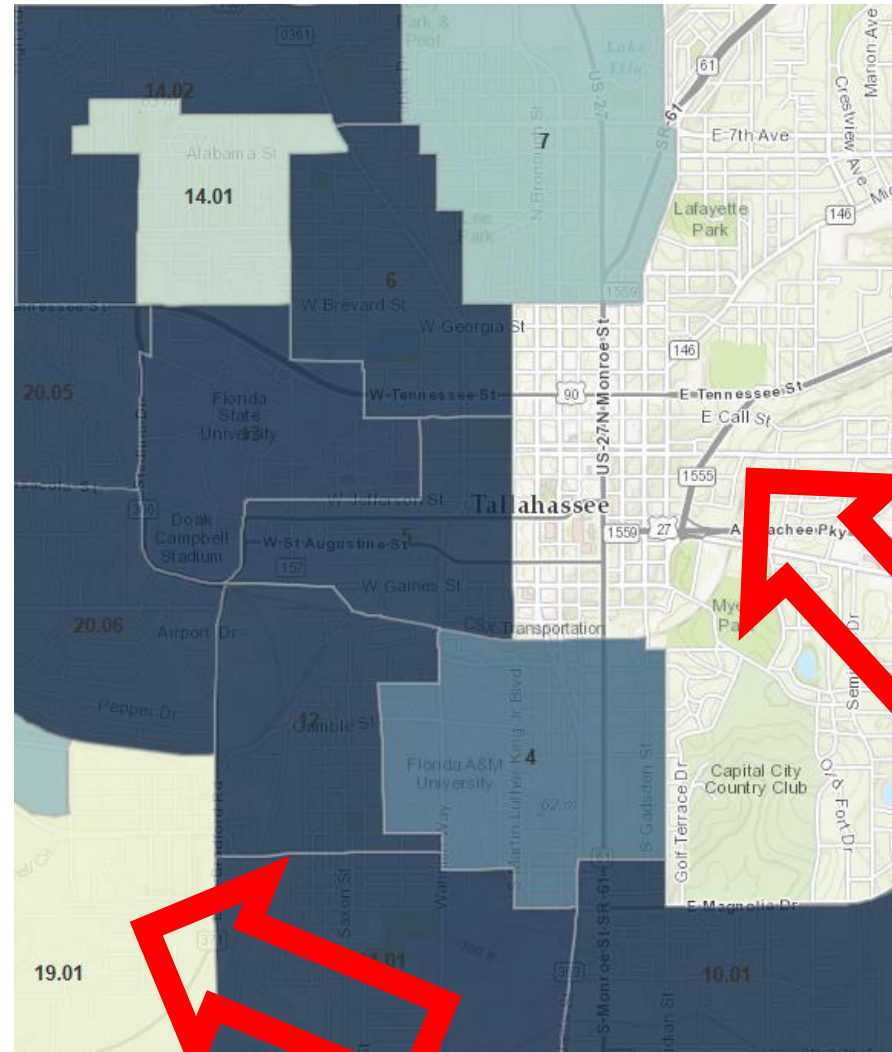

Poverty Rate Percentage Legend (cont'd)

- No shading indicates that the address or surrounding area is not considered a high poverty area

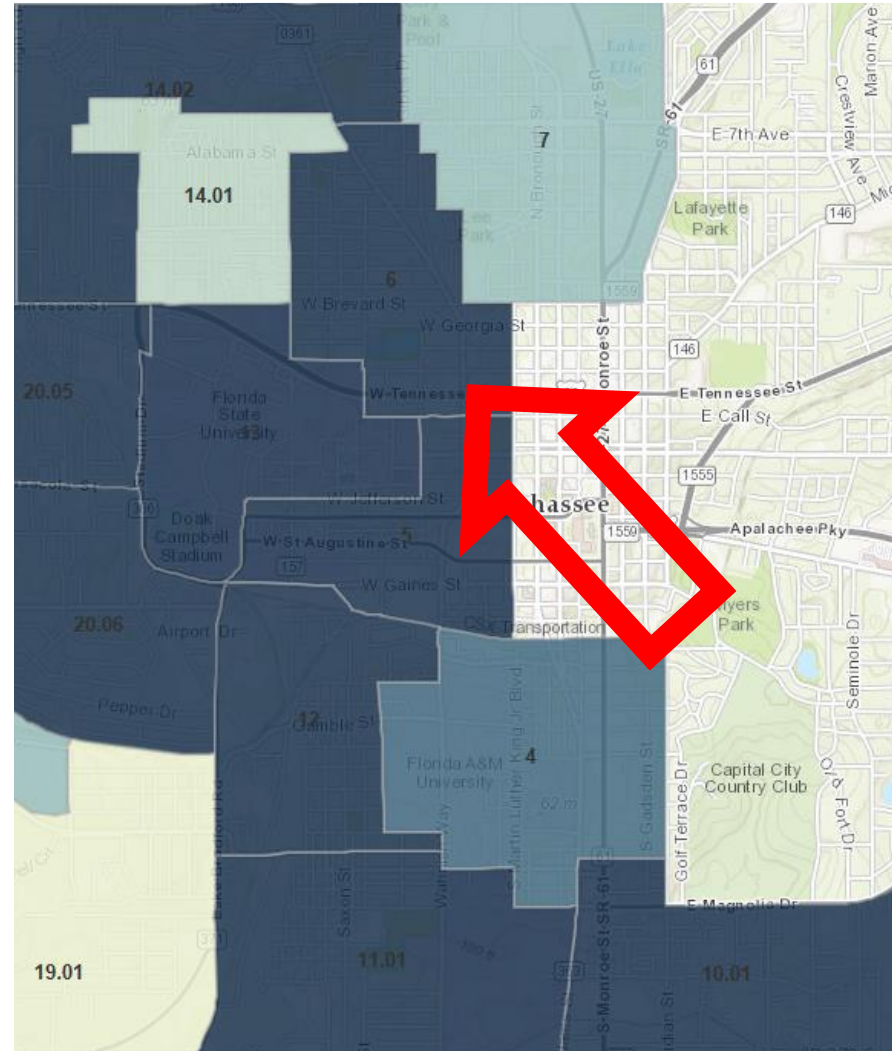

Poverty Rate Percentage Legend (cont'd)

- Green shading indicates that the address or immediate surrounding area is at or slightly above 30 percent poverty rate

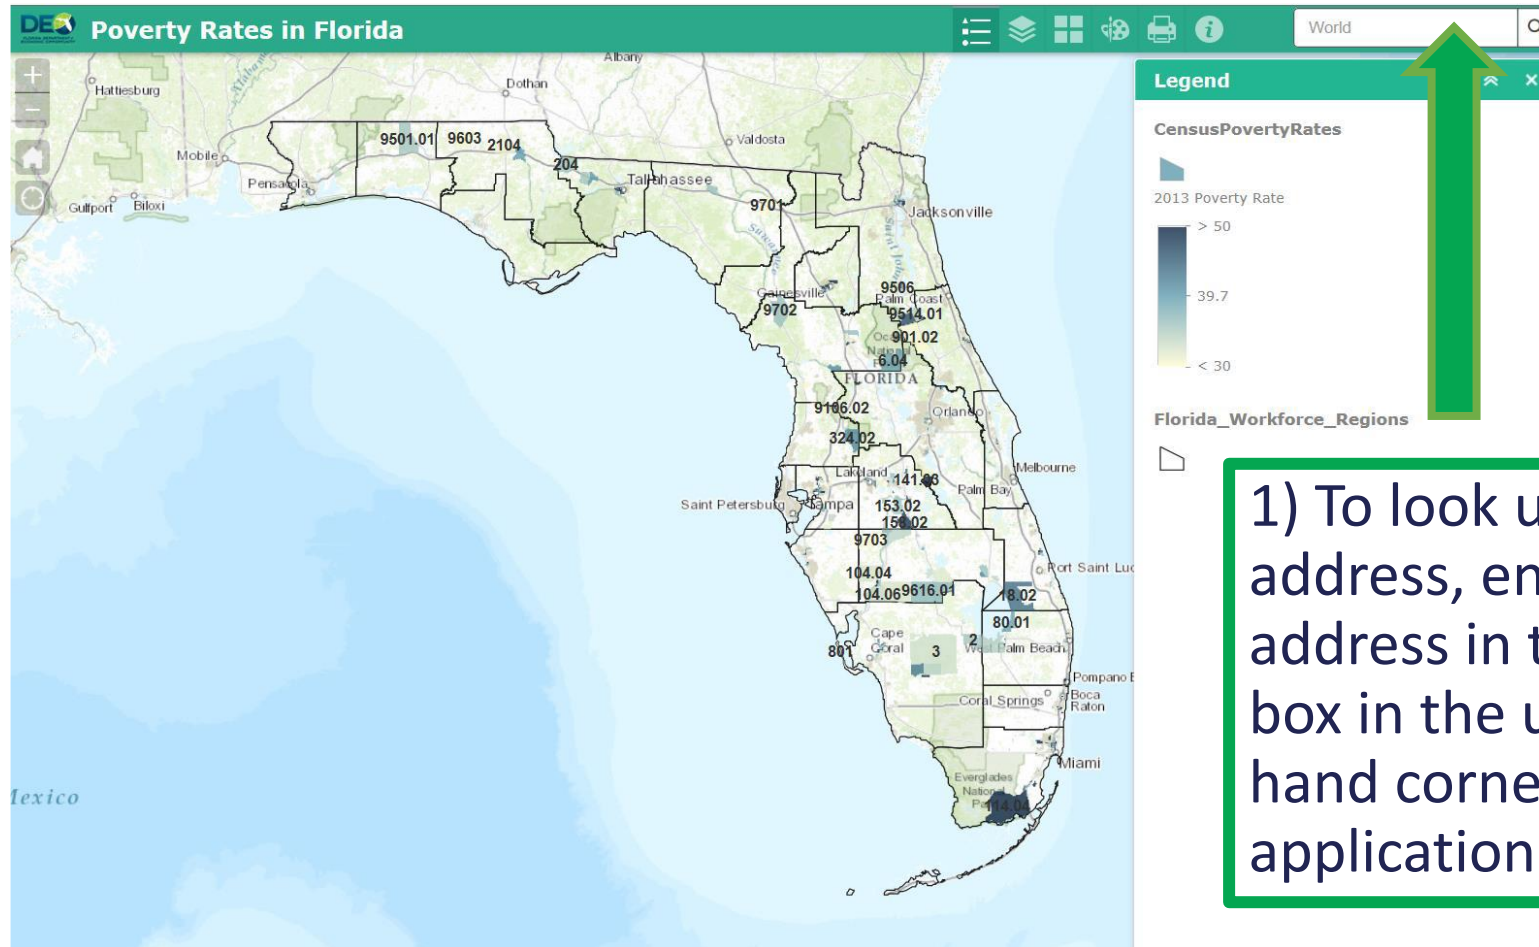

Poverty Rate Percentage Legend (cont'd)

- Blue shading indicates that the poverty rate is well above 30 percent poverty rate

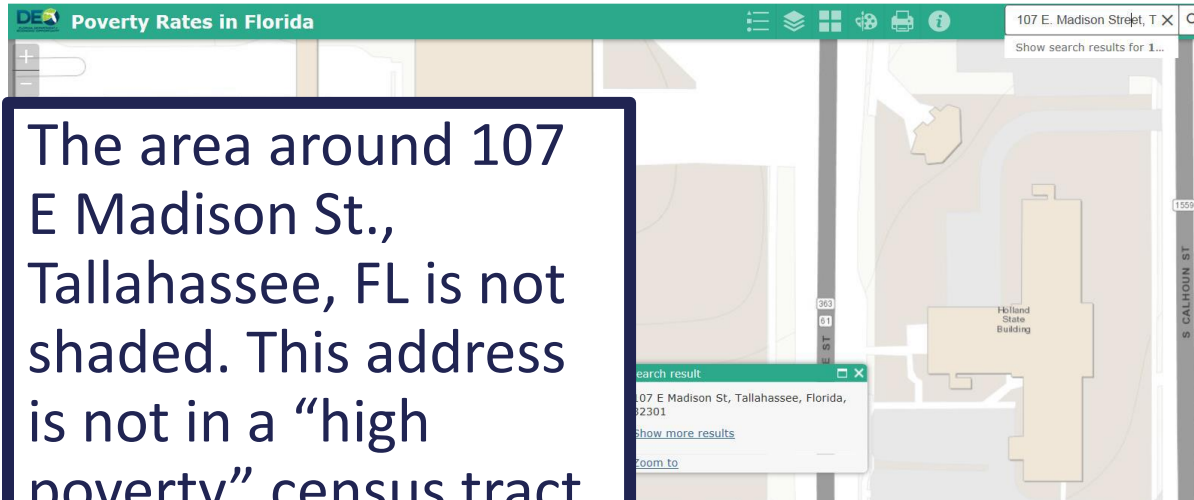

User Guide

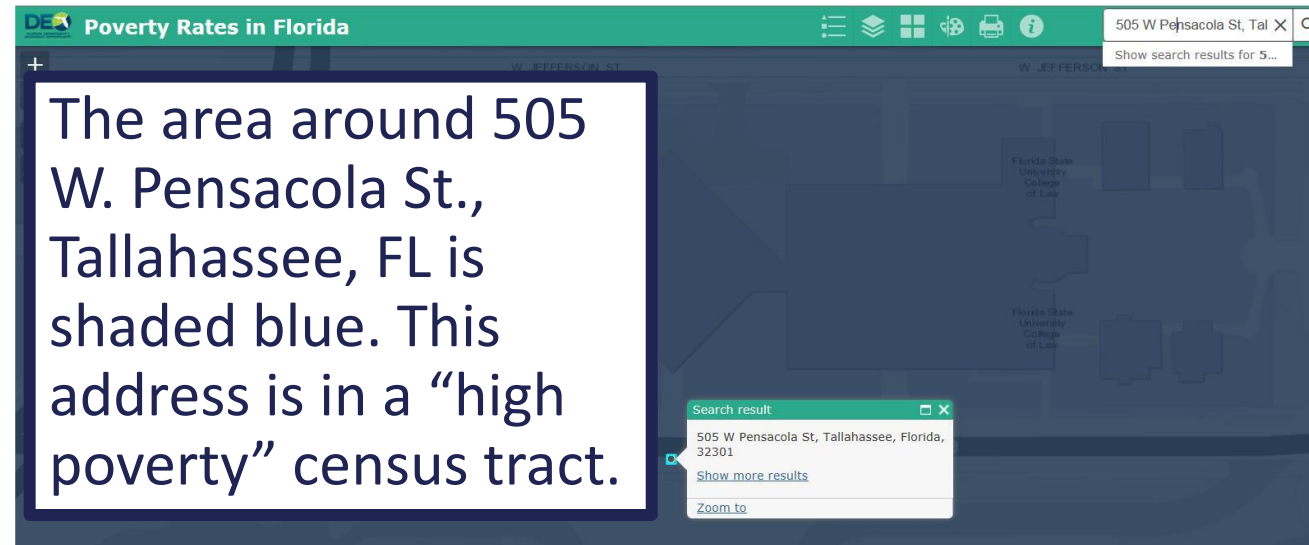

User Guide

The area around 107 E Madison St., Tallahassee, FL is not shaded. This address is not in a “high poverty” census tract.

2) The map will zoom in on the address you entered. If the area around the map is shaded, this census tract has a poverty rate >30%.

The area around 505 W. Pensacola St., Tallahassee, FL is shaded blue. This address is in a “high poverty” census tract.

User Guide

- Click on any part of the shaded area.
- This will display information about the census tract, including the county and the poverty rate.
- Click the arrow in the floating information box to see more information.
