#### Declaration Number

FEMA-4280-FL  
FEMA-4283-FL  
FEMA-4337-FL  
FEMA-4341-FL  
FEMA-4399-FL

### Narratives

#### Mitigation Needs Assessment:

Florida's Mitigation Program planning goal is to work with federal, regional and local partners to safeguard against loss of life and injury, disruptions to essential public services and infrastructure, economic impacts to residents and businesses, and losses to civic, cultural, and environmental resources. Florida's Mitigation Strategy is built on a comprehensive Risk Based Mitigation Needs Assessment that has identified flooding, severe storms, tropical cyclones, coastal erosion and wildfires as the most significant risks to Floridians.

Further, Florida's mitigation planning strategy seeks to protect seven critical community lifelines:

1. Safety and Security
2. Food, Water and Shelter
3. Health and Medical
4. Energy
5. Communications
6. Transportation
7. Hazardous Material

DEO, alongside other state agencies and local communities, has sought to engage with and seek input from local, state and federal partners on their disaster mitigation needs and priorities. DEO held statewide webinars, multiple regional workshops and sought input from community partners statewide through a survey to gather feedback from Florida communities on their mitigation priorities.

#### Proposed Use of Funds:

DEO is the lead agency and responsible entity for administering more than \$633 million in funds allocated to the state for mitigation and resiliency efforts through the Community Development Block Grant-Mitigation program. In accordance with the Federal Register, DEO's aggregate total for indirect costs and administrative and technical assistance expenditures will not exceed 5% of its total grant (\$31,674,250) plus program income. Planning costs are subject to the 15% cap (\$95,022,750) defined in 42 U.S.C. 5305(a) (12). The state is proposing a budget of 5% (\$31,810,750). Per the Federal Register, CDBG-MIT funds can be used to meet a matching requirement, share or contribution for other federal grant programs if they are used to carry out an eligible mitigation activity. This includes mitigation grants administered by FEMA and the United States Army Corps of Engineers. (The maximum amount for the USACE is \$250,000.) Activities that are funded with match dollars must meet the definition of a mitigation activity and must meet the eligibility requirements for the CDBG-MIT program and the federal program that is being aided with CDBG-MIT funds. Eligible project delivery costs are presumed included as a portion of the overall CDBG-MIT grant funding allocation provided to each subrecipient. DEO will limit spending to a maximum of 13% of the total grant amount on a combination of planning and indirect and direct program administration costs. Subrecipients will be responsible for properly tracking and monitoring the expenses that may not be included as part of the overall grant award to each individual project or individual applicant as applicable.

DEO proposes two primary mitigation categories; Infrastructure and Planning. Within these two categories are programs that focus on risk reduction for the hazards identified in the state Action Plan's risk-based mitigation needs assessment. These hazards include flooding, severe storms, tropical cyclones, coastal erosion and wildfires.

Eligible CDBG-MIT activities are set forth in the Housing and Community Development Act of 1974 (HCDA). HCDA activities that meet the criteria for both Infrastructure and Planning include: the payment of the non-Federal share required in

connection with a Federal grant-in-aid program undertaken as part of activities assisted under this Title 48 and the provision of assistance including loans (both interim and long-term) and grants for activities which are carried out by public or private nonprofit entities, including: acquisition of real property; acquisition, construction, reconstruction, rehabilitation or installation of public facilities (except for buildings for the general conduct of government), site improvements, and utilities, and commercial or industrial buildings or structures and other commercial or industrial real property improvements; and planning.

The categories and program areas in this CDBG-MIT grant are:  
Infrastructure Programs

- General Infrastructure; and
- Critical Facility Hardening  
Planning and Administration

- General Planning Support;
- DEO Administration; and
- DEO Planning.

## Overall Progress Narrative:

The State of Florida's Mitigation Action Plan, which encompasses three programs, was approved by HUD in April 2020. The \$20,000,000 General Planning Support (GPS) program was the first to be awarded, followed by the \$75,000,000 Critical Facility Hardening Program (CFHP), and the \$150,000,000 Round I General Infrastructure Program (GIP). The \$175,000,000 Round II GIP application cycle ended on September 17, 2021.

Due to the rising costs of materials and construction and the industrial impacts of recent national disasters, as well as COVID-19-related production issues, a large portion of the \$150,000,000 originally allocated for Round III of the Mitigation GIP was redirected to CDBG-Disaster Recovery's Hurricane Irma Housing Repair projects. The CDBG-MIT Action Plan was amended to include these projects as the GIP Round III projects.

In August 2021, a 2021 Substantial Amendment to the Action Plan was approved that provided for an allocation of \$46,926,000 to be used exclusively for general infrastructure projects in Michael-Impacted communities. DEO opened the application cycle for this program in March 2022.

The Mitigation programs have all been offered to counties, municipalities, state agencies and to non-profits and regional planning councils that applied in partnership with their county, local municipality or a state agency. The GPS program also allowed educational institutions to apply. Minimum and maximum awards by program were \$20,000/\$10,000,000 for the GPS program; \$50,000/\$15,000,000 for the CFHP; \$500,000/\$150,000,000 for the Round I GIP; \$2,000,000/\$175,000,000 for the Round II GIP; and \$500,000/\$42,223,400 for the GIP for Michael-impacted communities.

DEO has a robust website that includes its Action Plan, Program Guidelines, Frequently Asked Questions, Policies and Procedures and detailed application guidance for each program. DEO hosted or will host webinars for all of its programs to provide an overview of the Guidelines specific to the application process. DEO also provides an opportunity for applicants to schedule one-on-one phone calls with DEO's mitigation staff. These calls give applicants an opportunity to ask questions and/or discuss issues specific to their projects. Additional on-going technical assistance is provided throughout the application cycles through a publicized email address.

Application cycles by program were April 15 to June 30, 2020 for the CFHP; May 15 to July 31, 2020 for the GPS program; June 15 to September 14, 2020 for the Round I GIP; June 16 to September 17, 2021 for the Round II GIP; and March 11 to June 10, 2022 for the Michael-Impacted Communities GIP. DEO created an on-line application platform for all five application cycles. Once registered, each applicant was/will be emailed an individualized application weblink.

The CFHP received 356 applications with a total funding request of nearly \$369,000,000. The GPS program received 121 applications with a total funding request in excess of \$103,000,000. The Round I GIP received 403 applications with a total funding request of \$2,229,631,879. The Round II GIP received 246 applications with a total funding request of \$2,124,772,559.

DEO applied a two-phase process to review all applications. In Phase One applications were evaluated for Mandatory Threshold Compliance Criteria (ref.: Table 5, in Guidelines). This Phase was unscored. In Phase Two, if the Mandatory Threshold Criteria were in compliance, the application was reviewed and scored based on a Scoring Criteria Evaluation Rubric, (Ref.: Table 6, in Guidelines).

The top applicants in each program were invited to present their projects through virtual visits. The primary objective of these visits was to discuss any issues that could impact an award decision. A minimum of three members of the Mitigation Team were in attendance for each visit, and they collaborated after every presentation to determine the content of post-visit follow-up emails. The emails requested copies of the virtual visit PowerPoint presentations and asked questions regarding any outstanding issues.

Following the receipt of the responses to post-virtual visit emails, the highest-ranked GPS applications were recommended to DEO Leadership for funding. After Leadership's review, applications were funded, in order of ranking, to the greatest extent allowed by available funding.

For the CFHP and GIP Rounds I and II, in-person site visits were conducted following virtual visits. A two-person Mitigation team made CFHP visits in October and November 2020. Round I GIP on-site visits occurred in March 2021. Round II GIP visits were in October and November 2021. After these visits, the highest-ranked projects were recommended to DEO Leadership for funding.

Florida's Governor issued press releases announcing the 37 GPS award winners in January 2021; 61 CFHP award winners in February 2021; 20 Round I GIP award winners in April 2021; and 17 Round II GIP award winners beginning in January 2022. Intent to Award Letters were sent to project contacts along with a notice that DEO would soon reach out regarding the development of Scopes of Work (SOW).

DEO conducted a virtual 60-minute orientation for all GPS awardees on January 20, 2021 and for both GPS and CFHP awardees on February 12, 2021. The Round I GIP orientation was held on June 24, 2021. Mitigation team members were introduced and information regarding the initial sub-recipient agreement process requirements and DEO's expectations were covered. The Round II GIP orientation date will occur next quarter.
