

The purpose of this Employ Florida Marketplace (EFM) update is to announce a new Banner Center activity code: 999. This code is only available in the Generic Module and allows Banner Centers to track participants who will not count in their performance requirements. Staff with correct privileges can enter the generic applications and the 999 activity code with actual dates, as appropriate. If you have any questions, please contact Bettye McGlockton at [Bettye.McGlockton@flaawi.com](mailto:Bettye.McGlockton@flaawi.com) or (850)245-7408.
