TOPIC: New EFM Training Website:

<https://training.geosolinc.com/100/vos12000000v100/>

Employ Florida Marketplace (EFM) Update

Please note the new site for the Employ Florida Marketplace (EFM) training site used by staff for training and practice purposes is <https://training.geosolinc.com/100/vos12000000v100/>. There is not any production data on the training site, just the training data that is entered.

To set up new accounts, the Regional Security Officers (RSOs) should go to <https://training.geosolinc.com/100/vos12000000v100/admin>. The log-in for the administrative site for training has not changed; it is still admin/admin123. Existing training user accounts previously established are still active.

Thank you.
