TOPIC: The “change username” functionality in EFM has been temporarily turned off, effective today

Employ Florida Marketplace (EFM) Update

Please be advised that the “change username” functionality in EFM, where staff can change an individual or employer username, has been temporarily turned off effective today. This has been done in order to conduct tests to determine whether the functionality was contributing to a number of recent system issues in EFM. We will advise when the testing has been completed and the functionality restored.

Thank you.
