Services Provided to MSFWs at any Career Center:

To locate a career center near you, please call 1-866-FLA-2345 (1-866-352-2345). The career centers can provide a number of employment services, which may be of help to you. In order to receive some of these services you may have to register in Florida's employment service system online at www.EmployFlorida.com. Assistance with completing the registration is available.

Registration is not needed to:

- Receive information on the kinds of jobs that are available
- Receive information about and/or referral to other agencies that may be able to provide services not available through a career center, such as supportive services
- File a complaint about a career center or an employer
- Receive information about farmworker rights that are protected by state and federal laws

A short or partial registration is needed so that you may receive:

- Assistance with job search
- An immediate referral to an agricultural job for a specific farm recruitment event
- Referral to supportive services, including child care, medical/health, food assistance, transportation, housing

A full registration is needed so that you may receive:

- Assistance with labor market information
- Assessment of skill levels
- Career guidance or counseling
- Assistance with an Individual Employment Plan
- Referral to training opportunities, based on eligibility
- Orientation and workshops
- Referral to other job opportunities (including non-agricultural)

A full registration provides career center staff with a more complete summary of your work experience and needs. It will help them search for and identify more services that may be available to you and to continue to look for job opportunities for you after you leave the career center.
