The following non-entitlement local governments are eligible to claim 100 Grant History points for the Florida Small Cities Community Development Block Grant Program’s FFY 2018 application cycle. As of May 6, 2019, the communities will not have had an open Neighborhood Revitalization (including Planning and Design), Housing Rehabilitation or Commercial Revitalization subgrant during the past five years. Economic Development and Emergency Set-Aside subgrants do not count when determining Grant History point eligibility, but ARRA projects do count when determining eligibility.

If it is determined that a local government on the list had an open Neighborhood Revitalization, Housing Rehabilitation or Commercial Revitalization subgrant during the five years prior to the application deadline, the local government will be removed from this list and will not be eligible for the Grant History points.
