**MEMORANDUM**

**DATE:** October 29, 2012  
**TO:** Participating Regional Workforce Board Executive Directors  
**FROM:** Lois A. Scott, Program Manager, Workforce Program Support  
**SUBJECT:** New Reports for the Reemployment Eligibility Assessment (REA) Grant

In order to assist each participating RWB with the monitoring and management of the Reemployment Eligibility Assessment (REA) grant, two new reports have been designed.

The first report will be sent to participating RWB Executive Directors on a monthly basis and provides the most recent financial information, PREP pool counts, REA show rates, and REA assessments completed. An example of this report may be found in the first link below. Please share this report with the appropriate staff members.

The second report will be posted on a quarterly basis at [www.floridajobs.org](http://www.floridajobs.org) under the Program Monitoring and Reports section and provides a break down for each RWB of the ETA 9129 federal report or the REA "outcomes" report (second link below). This report provides the number of weeks REA participants received reemployment assistance before returning to the workforce as compared to reemployment assistance recipients that did not receive REA program services. We also have provided a link to a short PowerPoint presentation regarding how to read and understand the ETA 9129 report (third link below).
