MEMORANDUM

DATE: January 5, 2017

TO: Local Workforce Development Board (LWDB) Executive Directors

FROM: Lois A. Scott, Chief, Bureau of One-Stop and Program Support

SUBJECT: Supplemental Nutrition Assistance Program Employment and Training Able-Bodied Adults without Dependents Initial Engagement Process Changes

Effective February 1, 2017, the initial engagement process for Able-Bodied Adults without Dependents (ABAWDs) will change. This memorandum will only highlight the new functionality.

Initial Engagement Completion
The initial engagement steps will be required to be completed within seven days of referral to the Supplemental Nutrition Assistance Program (SNAP) Employment and Training (E&T) program from the Department of Children and Families (DCF). If one or more of the initial engagement steps remains incomplete by the eighth day, a sanction will automatically be requested by the One-Stop Service Tracking (OSST) system, or manually requested by the SNAP E&T Case Manager, if an ABAWD has been removed from the online initial engagement process.

Appointment Setting Requirement (Code 590)
ABAWDs will be required to schedule an appointment to meet with a case manager, and/or follow LWDB supplemental instructions. This requirement is intended to encourage immediate case manager interaction with ABAWDs and expedite the process of assignment and participation in qualifying components. This is the new step in the initial engagement process and replaces the prior automatic assignment to the online job search/job search training activities.

Once an ABAWD completes orientation and assessment, and clicks on the button to schedule an appointment, OSST will create a service code 590 – Appointment Setting*. The absence of service code 590 drives the system to automatically sanction the case due to failure to complete the initial engagement process. Therefore, once an ABAWD’s appointment has arrived, SNAP E&T Case Managers are responsible for selecting, in OSST, the ABAWD’s appointment status based on the options listed in the table below. The appointment status must be selected within two business days of completion of the appointment or no-show.

* LWDBs who do not use the event calendar, but require ABAWDs to contact them to schedule an appointment will have code 590 recorded in OSST with a default end date that is 14 days from the date the code is recorded.

A webinar has been scheduled for January 18, 2017, 10:00 a.m. – 11:00 a.m. eastern time, to demonstrate this new functionality from the ABAWD’s viewpoint, as well as in OSST for the Case Manager’s perspective.
