

## What next?

After you have received your new home, there will be a few requirements:

- Maintain flood insurance coverage. If you do not have flood insurance and did not receive federal assistance, the Program will help pay for one year of flood insurance.
- Keep current on all property taxes.
- Meet other requirements outlined in your legal agreements with the Program.

Ask your specialist for more details.

## Rebuild Florida

A program of the Florida Department of Economic Opportunity, created to help Florida families rebuild homes damaged or destroyed by recent disasters.

The state of Florida is committed to helping homeowners affected by natural disasters by rebuilding, repairing or replacing damaged homes.

For more information, visit **RebuildFlorida.gov**

The website provides detailed information regarding eligibility criteria, income guidelines, Rebuild Florida center locations and more.

## Your New Home

**Understanding your reconstruction project**

## Your New Home

You are one step closer to your new Rebuild Florida home!

You have been provided a prototype based on the room configuration of your damaged property. Your final design may differ due to a number of factors (e.g., lot shape, lot size and utility configuration).

Damaged Home Bedrooms	Rebuild Florida Replacement	Square Footage (plus porch)
1 bedroom	2Bd/2Ba	1,251 SqFt
2 bedrooms	2Bd/2Ba	1,251 SqFt
3 bedrooms	3Bd/2Ba	1,612 SqFt
4 bedrooms	4Bd/2Ba	1,992 SqFt
5 bedrooms	4Bd/2Ba	1,992 SqFt

Your home will be built to Florida Building Codes and Rebuild Florida Housing Repair and Replacement resiliency standards.

## Green Features

Design follows guidelines from EnergyStar for Homes program

- EnergyStar Labeled Appliances - clothes washer and dryer, dishwasher, refrigerator, etc.
- EnergyStar Qualified Exterior Doors
- Windows
- Thermal Envelope
- Plumbing - tankless hot water heater, water-conserving fixtures, etc.
- Lighting - fixtures, LED bulbs, etc.
- Heating and Air Conditioning

## Accessibility

The Rebuild Florida Housing Repair and Replacement Program is dedicated to helping Floridians on their road to recovery. Your Rebuild Florida reconstruction may be designed with an accessibility package. Speak to your Rebuild Florida representative to ensure your accessibility needs are met.

- Doors - width, swings and handles
- Accessibility - ramp, lift and hallways
- Bathrooms - shower, vanity and toilet
- Kitchen - cooktop and sink
- Electrical - outlets, light switches and thermostat controls

Presented is the prototype for the 3Br/2Ba reconstruction. Your prototype and final design may differ based on your configuration.
