Narratives

Disaster Damage:

The following information responds to the U.S. Department of Housing and Urban Development's Notice of Funding Availability provided in Federal Register / Volume 71, Number 209, Docket No. FR-5089-N-01. This Action Plan proposes using funds provided through the Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery, 2006, to assist local governments with satisfying their disaster recovery needs in the areas of housing (replacement, rehabilitation/repair and hardening and mitigation activities) and infrastructure repair/improvement. Funding will be used to specifically address the needs of low to moderate income households limited to 80% AMI and below. All damaged structures receiving assistance (homes, apartments, public facilities, etc.) as a result of Hurricane Wilma are required to be repaired, rehabilitated or replaced, hardened and provided other mitigation measures to further protect from future storms. The State of Florida considers it a priority to support mitigation and hardening activities to hedge against future storm-related disasters. Therefore, the determination was made to use dollars appropriated under this program to support such activities along with the typical disaster related uses. These funds will be used for eligible disaster related activities supporting housing rehabilitation, hardening and infrastructure repair/improvements at the requests of the local governments to assist the State of Florida in better serving low income citizens located in Wilma impacted counties. Up to 20 percent of the funds will target multi-family units meeting certain eligibility criteria.

Recovery Needs:

The Impact of the 2005 Hurricane Season The 2005 Atlantic hurricane season developed as the most active season on record, shattering historical records. The season included 27 named storms, with 15 hurricanes, of which seven were major. It was by far the most devastating hurricane season the country has experienced in modern times. During 2005, four hurricanes impacted the State of Florida. On July 10, Category 3 Hurricane Dennis struck the Florida Panhandle, which was still recovering from the devastation caused by Hurricane Ivan less than a year before. On August 25, Hurricane Katrina hit just north of Miami as a Category 1 storm, causing tornadoes and wind damage in Southeast Florida. On September 20, Hurricane Rita passed just south of the Florida Keys, causing flooding and storm surge in the chain of islands. On October 24, Category 3 Hurricane Wilma struck the southern peninsula of Florida, causing major damage in Southwest Florida, the Florida Keys and heavily populated counties in Southeast Florida. Hurricane Wilma caused the largest disruption to electrical service ever experienced in Florida, with as much as 98 percent of South Florida without power after landfall. Wilma ranks as one of the costliest hurricanes on record. By the end of hurricane season, 37 of Florida's 67 counties had been declared a federal disaster area for the purpose of public assistance. Even as our state continued to prepare, respond and recover from hurricanes, Florida quickly responded to the requests from federal and state emergency managers to support our neighbors in the wake of Hurricane Katrina. Within hours of the second landfall of the catastrophic storm along the Gulf Coast, Florida began deploying first responders in Louisiana, Mississippi and Alabama. More than 7,000 Floridians, including members of the Florida National Guard, Florida Highway Patrol, Florida Department of Law Enforcement, county sheriffs, local police and fire departments, specialized search and rescue teams, emergency response managers, doctors, nurses and medical professionals, came to the aid of the people in those states. Along with essential equipment and communication tools, Florida advanced more than \$80 million in state and local funds to assist with these efforts, providing more than 3.6 million gallons of water and 19 million pounds of ice to help affected residents. The catastrophic storms destroyed and damaged thousands of homes. More than 40,000 roofs were temporarily repaired through the Corps of Engineers' "Blue Roof" program. FEMA made available over 2,000 travel trailers and mobile homes for those left homeless by the storms. More than 625,000 Floridians registered for FEMA assistance and grants were provided to these 2005 disaster victims for housing repair and rental assistance and to repair or replace personal property. Hurricane Wilma alone impacted 275,437 housing units: • 3,124 units were destroyed by Wilma • 38,441 units sustained major damage from Wilma • 119,038 Wilma units were estimated to be lived in by homeowners/renters with annual incomes at or below \$30,000 (FEMA data compiled by Shimborg Center for Affordable Housing, UF) • \$4.6 billion in insurance claims for Wilma damage alone HUD subsidized rental units were hit hard by the disaster. Of the 17,804 HUD subsidized units in the Wilma counties, two developments reported severe damage with relocations, 61 households required temporary relocation, bitable;

Recovery Needs:

e uninhabitable. A total of 393 households were displaced. Approximately 600 multi-family units financed by the Florida Housing Finance Corporation also received minor damage. Insurance Crisis and Florida's Response Equally important to the recovery process is the need to ensure that Floridians are able to maintain insurance on their homes and businesses and that public facilities and infrastructure remain insured. The 2.8 million insurance claims (\$36 billion) filed after the 2004 and 2005 hurricanes resulted in an insurance crisis in the State of Florida. Record payouts on claims demanded industry relief which was felt immediately in terms of cancelled policies and rate increases. As a result of the insurance industry's recovery needs, low and moderate income citizens, already faced with paying high insurance rates, now face even higher premiums. And, although housing was damaged or destroyed in specific areas hit hardest by the hurricanes, rate increases have occurred statewide. Without relief, homeowners with mortgages may have coverage placed for them by their mortgage bank, known as forced placed coverage, at four to five times the current rate and reduced policy provisions. Homeowners without mortgages may have to let their policies lapse. Given the potential for future hurricane related events, the state is aggressively addressing this crisis and actively pursuing reforms to address the problem statewide. The State of Florida was forced to take immediate and aggressive action to address this crisis. Because the insurance capacity necessary to sustain the population and housing growth in Florida is not readily available, recent state legislation enacted several measures to create more capacity in the private marketplace by providing incentives to insurers and consumers as described below.

- Insurance Capital Build-Up Incentive Program – The state allocated \$250 million for an insurance capital build-up incentive. As of October 30, 2006, 11 companies had applied to the Program with a total amount of \$244 million requested, which could result in total additional new capital to Florida property insurers of \$488 million.
- Premium credits for loss mitigation efforts – A 2002 study conducted by the Department of Community Affairs was the basis for establishing insurance credits for various mitigation techniques; and, at that time, only 50 percent of the maximum discounts were available to consumers. The Florida Cabinet has re-evaluated wind mitigation credits for homes built to building code standards to encourage wind loss mitigation efforts by consumers and felt those who proactively protected their homes from hurricanes should receive a more sizeable discount for the mitigation efforts and doubled the amount of credits offered to consumers. Now, homeowners that proactively mitigate their homes can, over the life of their insurance policy or mortgage, save double on their insurance credits, and most importantly help keep them in their homes after a hurricane. (The Rule was effective January 1, 2007.)

Hurricane Loss Mitigation Efforts – The My Safe Florida Home Program provided \$250 million in grants for hurricane shutters, roofing and other improvements to better protect up to 45,000 homes against hurricane damage and reduce the state's insurance potential maximum loss. The program provides for free home inspections, as well as 50 percent matching grants of up to \$5,000 to encourage single-family

Recovery Needs:

ly homes to reduce vulnerability to hurricane damage. STATUS Following this disaster allocation, Congress awarded supplemental CDBG funds in the amount of \$100,066,518 to assist with the recovery effort. These funds were announced in the Federal Register (Volume 71, No. 209) published on October 30, 2006. An initial Action Plan was developed and submitted to HUD in December 2006; however, the State submitted an amended Action Plan in May. We anticipate that formal approval will be received prior to July 31, 2007. Three categories of funding have been established: Category Allocation Single-family/Multifamily Housing Repair and Mitigation \$56,287,416.38 Multifamily Rental Housing Repair and Mitigation \$20,013,303.60 Infrastructure Repair/Improvement \$18,762,472.12 State and Local Administration \$5,003,325.90 Total Allocation \$100,066,518.00 Counties eligible for assistance include: Brevard, Broward, Charlotte, Collier, Glades, Hardee, Hendry, Highlands, Indian River, Lee, Martin, Miami-Dade, Monroe, Okeechobee, Palm Beach, Polk, Sarasota, and St. Lucie. On August 3rd, the Department will conduct a conference call with these counties to go over the state's administrative rule that will govern the funds and the information that will be requested for projects proposed for funding. Following the conference call, local governments will begin submitting project proposals to the Department. If the amended Action Plan is approved by July 20th, 2007, project proposals will be due by the end of August. Staff will then make site visits and determine project eligibility. Contracts should be initiated no later than October 1, 2007. Although the amendment to the Action Plan delayed the delivery of funding to the affected areas, local governments were supportive of the amendments and believe that the revised Action Plan better meets local needs. Since the Department will begin the awards process in August, and detailed information on the allocation of the funds will be provided in the next quarterly report. CONTACT THE FLORIDA DEPARTMENT OF COMMUNITY AFFAIRS FOR A COMPLETE VERSION OF THIS ACTION PLAN. (850)487-3644

Progress Toward Activity Type Targets

Progress Toward National Objective Targets

Overall Progress Narrative:

In response to HUD's request for expenditure and performance projections, the Department reviewed all open activities and is providing HUD with quarterly projections. The Department also identified the activities with the poorest performance expenditures so that staff can pay special attention to these projects as we move forward. DEO has also made some management changes that should result in greater attention being paid to performance issues.
