

## OVERVIEW: DEMO SUGGESTIONS

### Login:

- **Data:** Use the user account information provided to you (userid and password) to log into the training environment.
- **Things to Point Out:**
  - Users' ids and passwords are different from current ids and passwords in WAGES MIS.

### Change Password:

- **Data:** Use the user account information provided to you (userid and password) to log into the training environment, and show how users are able to change their passwords.
  - **Things to Point Out:**
    - Tell participants that if they change training account passwords, that they need to change the password back to the original account information before leaving the class.
