PURPOSE

The following table incorporates the updated income levels to be used in calculating income levels to determine whether an individual meets the “low income” definition under the Workforce Investment Act. The income guidelines are also used to prioritize services for WIA adults when funding is limited.

Use of the updated income levels is effective as of March 19, 2013 when the notice was published in the [Federal Register](#).

ACTION REQUIRED

This information should be shared with staff and other interested parties involved in the eligibility determination process for programs that include income as a criterion.

For each additional person in a family above eight, add \$4,862 per person in the Non-Metro areas.	For each additional person in a family above eight, add \$7,030 per person in the Metro areas.	For each additional person in a family above eight, add \$6,946 per person in the Non-Metro areas.

The RWBs which contain the following counties are required to use the Metro data: Escambia, Santa Rosa, Okaloosa, Bay, Gadsden, Leon, Clay, Duval, Nassau, St. Johns, Alachua, Marion, Flagler, Volusia, Lake, Orange, Osceola, Seminole, Brevard, Polk, Hernando, Hillsborough, Pasco, Pinellas, Manatee, Sarasota, Charlotte, Lee, Collier, Martin, St. Lucie, Palm Beach, Broward and Miami-Dade. The remaining RWBs must use the Non-Metro figures.

Where the poverty level for a particular family size is greater than the corresponding LLSIL figure, the Metro or Non-Metro figure is indicated in parentheses.

The 100 percent table for the LLSIL may be modified to calculate any locally determined values for prioritizing service or eligibility (i.e. 200 percent of LLSIL would multiply the 100 percent value times 2 for the appropriate family size).
