Section I: Introduction

Dear Community Partner,

As an applicant under the Federal Emergency Management Agency's (FEMA) Hazard Mitigation Grant Program (HMGP), your community may be eligible to participate in a Match Program made available through the Florida Department of Economic Opportunity (DEO) to reimburse the non-federal portion of an awarded and eligible HMGP grant. This Match Program is funded by the U.S. Department of Housing and Urban Development's (HUD) Community Development Block Grant – Disaster Recovery (CDBG-DR) allocation for Hurricane Michael recovery, described in the Supplemental Appropriations for Disaster Relief Act, 2018 (Public Law 115-254) and the Additional Supplemental Appropriations for Disaster Relief Act, 2019 (Public Law 116-20).

DEO has allocated \$109 million in CDBG-DR funds to the HMGP Match Program, which will be administered by DEO. Use of CDBG-DR funds for local match when applied to an activity that is an eligible use of CDBG-DR funds is authorized under Section 105(a)(9) of the Housing and Community Development Act of 1974 (HCDA). HMGP awarded projects must meet all CDBG-DR requirements as well as requirements in the State Action Plan for Hurricane Michael Recovery. Not all awarded HMGP projects will meet the CDBG-DR and State Action Plan requirements, so it is important that you review the Match Program requirements closely.

Due to the CDBG-DR Order of Assistance requirements, the Match Program is only allowed to pay for costs that cannot be reimbursed by FEMA, so the program is limited to the non-federal cost share of the HMGP project, up to 25% of allowable and actual project costs.

Only HMGP Tier 1 and Tier 2 applicants will be considered, as Tier 3 projects are located outside of the Most Impacted and Distressed (MID) [areas](#) for Hurricane Michael, as identified by HUD and the State of Florida.

Participating subrecipients under the Match Program must follow required CDBG-DR citizen participation requirements, which exceed those required by the Local Mitigation Strategy Working Group process. Applicants must provide evidence for how their HMGP projects meet cost-reasonableness and anti-fraud, waste and abuse standards. All costs must meet the four criteria found in 2 CFR 200, Subpart E: necessity, reasonableness, allowability, and allocability.

Additionally, all contracts and procurements associated with the Match Program must include all mandatory terms for use of CDBG-DR funds and be in compliance with CDBG-DR procurement requirements. If current contracts do not require contractors to comply with CDBG-DR requirements, the contract must be amended, or a new procurement completed to avoid non-compliance.

Match Program eligible activities may include but are not limited to:

- Acquisition/Demolition
- Structural Elevation
- Non-Portable Generators
- Localized Flood Risk Reduction
- Infrastructure

- Post-Disaster Code Enforcement

For projects that have already been procured or are under construction, please pay specific attention to the necessary CDBG-DR requirements which may impact the project's eligibility under this Match Program (e.g., Davis Bacon Act wage rate requirements, Section 3 economic opportunity goals, etc.)

If you intend to apply for this match program, please complete and sign the attached application and return it to DEO with all required materials by 5:00 EST September 30, 2021.

Completed applications should be submitted to CDBG-DRInfrastructureApp@deo.myflorida.com .

Upon review of application materials and determination of eligibility, applicants will be notified of the status of their application. If deemed eligible, a Notice of Funding Availability (NFA) for the HMGP match amount will be provided with appropriate documentation. Following execution of the CDBG-DR subrecipient agreement, the subrecipient will implement the project in accordance with this agreement and traditional project management practices (e.g., requests for reimbursement submission, quarterly reporting, etc.)

Section III: LMI Compliance

LMI Service Area Confirmation:

The required LMI map should encompass the entire area benefiting from the project and depict all project sites if multiple locations exist. Applicants are to utilize HUD's Low- and Moderate-Income (LMI) Area Data to determine the project benefits LMI families in the surrounding area. Applicants can also develop an income survey of the area as an alternative to the Census Data. HUD provides a demonstration to determine the area of benefit, whereas at least 51 percent of the residents shall be LMI to qualify for CDBG-DR assistance.

If Census Data was selected:

List the census tract number(s) that are proposed to be included in the project area:

List the census tract block group(s) that are included in each of the census tracts listed in the previous question:

What is the percentage LMI of the location selected? _____

If Income Survey was selected:

What is the date the Income Survey was started?

Will the Income Survey be completed prior to the Application deadline?

What are the results of the Income Survey?

LMI Census Worksheet:

The Office of Community Planning and Development (CPD) provides estimates of the number of persons that can be considered Low-, Low- to Moderate-, and Low-, Moderate-, and Medium-income persons based on special tabulations of data from the 2011-2015 ACS 5-Year Estimates. This information can be gathered from the [HUD Exchange](#), at the below URL.
